The **Alabama Minuteman Reports Newsletter** is owned and operated exclusively by Alabama citizens for Alabama citizens; is intended to provide news and commentary that the lamestream media does not report and accepts input from all sources; however, we cannot accept responsibility for the accuracy of any material presented. It is up to each individual reader to verify and judge the material's accuracy for themselves.

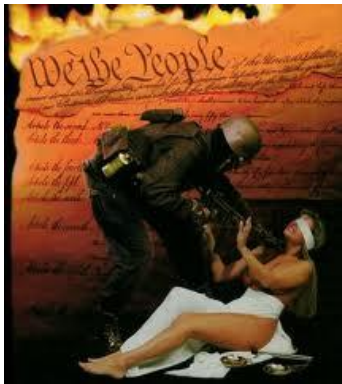

It is widespread public apathy that is the single biggest threat to individual liberty. By remaining silent, people condone what government does and as such are part of the problem.

We the People – Alabama will work with and support those elected servants of the People who honor their Oath of Office to “support and defend the Constitution for the United States against all enemies, foreign and domestic” and will hold accountable to their constituents those who do not.

Do you remember last summer when the Department of Homeland Security published a report that defined potential terrorist as anyone who believed in the bible, had conservative bumper stickers on their car, was former military, believed in the Second Amendment, was a Tea Party supporter and on and on.

Those in Congress who swore an oath to defend the Constitution from all enemies foreign and domestic and as such are charged with defending the freedoms of the people are now the very ones who are the greatest threat to both the Constitution and the people's freedoms.

With the Patriot Act, the ever growing Department of Homeland Security, the TSA and now with this, the virtual repeal of Posse Comitatus, how long does anyone seriously believe it will be before they start rounding up the activists who want to see our constitutional liberties preserved under the pretext of being a potential terrorist... never to be seen or heard from again.

This is how dictatorial regimes have operated throughout history when the people allowed it to happen, because they were ill-informed, mis-informed or didn't want to get involved.

We the People – Alabama request that we be informed of those Senators who vote for this treasonous violation of the people's trust when it comes to the Senate floor this next week.

“Those who fail to learn from history are doomed to repeat it”

Senate Moves To Allow Military To Intern Americans Without Trial

NDAAs detention provision would turn America into a “battlefield”

Paul Joseph Watson

The Senate is set to vote on a bill next week that would define the whole of the United States as a “battlefield” and allow the U.S. Military to arrest American citizens in their own back yard without charge or trial.

“The Senate is going to vote on whether Congress will give this president—and every future president — the power to order the military to pick up and imprison without charge or trial civilians anywhere in the world. The power is so broad that even U.S. citizens could be swept up by the military and the military could be used far from any battlefield, even within the United States itself,” writes [Chris Anders of the ACLU Washington Legislative Office](#).

Under the ‘worldwide indefinite detention without charge or trial’ provision of S.1867, the [National Defense Authorization Act bill](#), which is set to be up for a vote on the Senate floor Monday, the legislation will “basically say in law for the first time that the homeland is part of the battlefield,” said Sen. Lindsey Graham (R-S.C.), who supports the bill.

The bill was drafted in secret by Senators Carl Levin (D-Mich.) and John McCain (R-Ariz.), before being passed in a closed-door committee meeting without any kind of hearing. The language appears in sections 1031 and 1032 of the NDAA bill.

“I would also point out that these provisions raise serious questions as to who we are as a society and what our Constitution seeks to protect,” [Colorado Senator Mark Udall said in a speech last week](#). One section of these provisions, section 1031, would be interpreted as allowing the military to capture and indefinitely detain American citizens on U.S. soil. Section 1031 essentially repeals the Posse Comitatus Act of 1878 by authorizing the U.S. military to perform law enforcement functions on American soil. That alone should alarm my colleagues on both sides of the aisle, but there are other problems with these provisions that must be resolved.”

Those who know there is a problem and choose not to get involved or even support those who are involved are part of the problem and may well soon lose even the choice to get involved.

“When governments fear the people, there is liberty. When the people fear the government, there is tyranny”

Thomas Jefferson

The strongest reason for the people to retain the right to keep and bear arms is, as a last resort, to protect themselves against tyranny in government

There is a way to stop this insanity.

Attend the presentation by Sheriff Richard Mack in Huntsville, Alabama on January 21, 2012 to begin learning what can be done now to halt the destruction of your freedoms, your country, your way of life, your standard of living and the future of your children and grandchildren and begin the process of restoring our constitutional republic.

“Those who will not stand in defense of Liberty, or even support those who are, can and should have no reasonable expectation of enjoying its blessings.”
